INGREDIENTS

Cottonseed Meal

FEEDING DIRECTIONS

Hand feed to beef cattle on pasture. Feed 1 to 4 lbs. per head per day as needed according to stage of lactation and body condition to supplement available forage. Provide free choice minerals and fresh water at all times. Provide good quality hay as needed.

WARNING: To feed this feed at the higher end of recommended feeding level, the cattle should be acclimated to the feed. Start with 1 to 2 pounds per head per day and raise the level 0.5 pounds per day until the desired feeding level is reached. Does not contain added minerals. Make sure minerals are available free choice at all times.
