FEEDING DIRECTIONS

Feed 1 to 2.5 lbs. of this feed per 100 lbs of body weight per head per day. If feeding over 1 pound per 100 pounds of body weight, feed in split feedings at least two times a day. As a general rule, younger animals should be fed the higher and older animals should be fed the lower range. Do not feed the higher range amounts to animals not accustomed to the feed. Provide fresh water, minerals and good quality hay at all times.

WARNING: Do not feed to sheep, contains supplemental copper.
