FEEDING DIRECTIONS

Feed free choice to ruminating beef cattle. Keep some hay or grass available at all times. Keep fresh water available at all times. This feed is designed to be used to replace most of the forage diet of pasture cattle, however, limited amounts of hay or pasture are highly recommended. It is expected that cattle on the feed free choice will consume 1.8 - 2.0% of body weight per head per day (18-20 pounds per 1000 pound animal).

WARNING: Do not feed to sheep, contains supplemental copper.
